A land ethic, then, reflects the existence of an ecological conscience, and this in turn reflects a connection of individual responsibility for the health of the land. Health is the capacity of the land for self-renewal. Conservation is our effort to understand and preserve this capacity. ~Aldo Leopold

Hi, Julia. No, Sorry I haven't yet. My word 2003 (XP) isn't opening word 2007 docs here at home. By any chance, do you have a .doc version of the SOW document I can look at?

Hey Ross,
Was wondering if you've had a chance to take a look at the Natureserve SOW yet? If so, let's discuss.
